

HANTRONIX

Leading the Industry Since 1979

CUSTOM LCD SOLUTIONS

Engineered display solutions for industrial and medical applications - built for long life cycles and backed by exceptional engineering support

TFT DISPLAYS – Core product line up to 21.5", offering wide temperature range, high brightness, and optical bonding

CUSTOM MODULES – Tailored designs including cover glass, backlights, touch integration, and resizing to meet unique application needs

STN DISPLAYS – Expanded STN production line ensuring long-term continuity as others exit the market

OLED DISPLAYS – Passive-Matrix, Graphic up to 5.0", Character Options

WIRE & CABLE ASSEMBLY SOLUTIONS

Custom wire and cable assemblies built in Minneapolis for OEM, industrial, and medical applications

CUSTOM WIRE & CABLE ASSEMBLIES – Low- to medium-volume builds, from lab prototypes to full production, with fast quotes and short lead times

WIRE HARNESES – Precision hand-built assemblies with full testing and validation

ULTRASONIC WELDING – Reliable joining for conductors, terminals, and fine-gauge connections

LOCAL ADVANTAGE – ISO-compliant, flexible, and responsive support with next-day service and hand delivery when needed

INTEGRATED MANUFACTURING SOLUTIONS

An international product development and manufacturing partner with a permanent presence in Asia - supporting complex, high-precision builds through metal, plastic, and cable assembly expertise

METAL & MECHANICAL – Die Casting, CNC Machining, Metal Injection Molding (MIM), Investment Casting, and Stamping for complex assemblies and enclosures

PLASTIC MANUFACTURING – Injection Molding (90T-1300T), Insert & Overmolding, Multi-Shot, and Rapid Prototyping (SLA, SLS, FDM, Urethane Casting)

WIRE HARNESES & CABLE ASSEMBLIES – High-end assemblies featuring low-pressure molding and cleanroom capability for demanding applications

CONTRACT MANUFACTURING – Turnkey submodules and complete devices integrating plastics, PCBs, and electromechanical assemblies

USER INTERFACE SOLUTIONS

A world-class leader in user interface components - silicone rubber keypads, sub-assemblies, custom molded rubber products, and custom injection parts

SILICONE KEYPADS – Silkscreen, Laser Etching, Bonded Plastic Keycaps

MEMBRANE SWITCHES – Metal or Poly Domes, Embedded LEDs, and Custom Embossing

CUSTOM RUBBER PARTS – Gaskets, Grommets, O-Rings in silicone, nitrile, or fluorosilicone

PLASTIC MOLDING – Injection-molded parts that complement Hanaco's rubber and keypad programs
